Builders	> 50 %
Surfactants	2 - 10 %

## FIRST AID MEASURES:

Contact with eyes:	Rinse eyes with running water holding back eyelids for 15 minutes. If irritation persists, seek immediate medical advice with transport to hospital or emergency clinic possible.
Contact with skin:	Wash affected area with copious volumes of water (use emergency shower). If clothing is contaminated, remove and wash the affected skin area. If irritation or swelling occurs, seek medical advice.
After inhalation:	A non-volatile product in normal use. But if subject to vapourisation remove the patient from exposure to a comfortable location and seek medical advice.
After ingestion:	Do Not Induce Vomiting. Administer 2 glasses of water or milk and seek immediate medical advice. Transport to hospital or emergency clinic without delay.
Advice to Doctor:	Treat patient for acute exposure to material with corrosive and toxic effects. Have this SDS or a product label on hand.

## FIRE FIGHTING MEASURES:

This product is neither flammable nor combustible.  
Packages subject to the heat of a fire may burn scattering contents in the vicinity. If water is used to fight the fire, dissolved powder will flow to the lowest levels. Where possible remove all packaging from the path of a fire while still dry.  
Firefighters must wear SCBA and chemical resistant suits.  
Firefighters should use foam, CO<sub>2</sub>, or dry chemical powder to extinguish a fire in the vicinity. Water jet, spray, or fog on large fires only.

## ACCIDENTAL RELEASE MEASURES:

Spills on floors will produce a slippery surface if moisture is around. Signage preventing foot traffic should be erected where appropriate. Spills should be carefully contained from spreading beyond the spill area and swept up with brooms and shovels or a mechanical vacuum cleaner if appropriate for corrosives, and the debris placed in open top-drums which can be closed and removed to landfill.

## HANDLING AND STORAGE:

Store sealed unopened bags in sites where they can be kept cool and dry, and away from heat sources.  
Handle to prevent damage to packages. Should packaging become damaged, repack into clean and dry bags, or containers of a suitable type to hold the powder and mark the product name carefully on the bag or container.  
After using the product, always close the inner liner plastic bag, then fold over the top of the outer bag and seal closed with adhesive tape.  
After use, return all packages to safe storage as soon as possible.
